- Coding standards compliant XHTML/CSS with emphasis on browser compatibility, accessibility, and search engine optimization.

July 2009 – July 2010 (Full-Time)
Aberystwyth University Football DIGS League

Successfully campaigned to manage the University football league for which I developed a league management website to help effectively run the various league and cup competitions. Tasks included collecting fees from over 600 players and running the budget for the year. As a result of a successful year using the system, I continue to be invited back every year to run Rugby and Football Tournament league tables on big screens using an adaptation of my system (www.aber7s.co.uk).
